## Mental health

At RottoLabs we are very sensitive to one of the main current issues that concern our society. No matter what country of origin, nationality or race you are, surely you have heard about the subject and know someone that has needed help. Fortunately, in recent years the term mental health has been normalized, it is much more present in our conversations and is treated much more naturally. Could this be that mental health is not only related to the emotional development of the individual. In our day to day, we suffer situations that can alter our well-being.

It is for all this that at RottoLabs we are committed to helping organizations that provide mental health service and we will be making regular donations so they can continue to provide services to those who need it more.
